WHY CHOOSE STRONGHOLD FASTENERS AS YOUR ROOFING FASTENERS SUPPLIER?

- You will experience the top-notch service and supply that has made us a leading distributor of roofing fasteners nationwide.
- Our family-owned business is dedicated to providing excellent communication and reliable delivery of the full range of construction fasteners, with a focus on eliminating wait times for colorsteel fixings.

We are proud to offer a large stock of colorsteel screws,

- allowing us to supply overnight straight from our inventory.

Trust Stronghold Fasteners for all your fastening needs and enjoy the

- peace of mind that comes from working with a dependable and rapidly growing company.

HEAR IT FROM OUR CUSTOMERS:

"As a large commercial roofing company, we currently purchase all of our roofing tek screws, coloured rivets - drill bits and silicone - dektites through Stronghold Fasteners and the turn around on their items is extremely fast.

With previous suppliers we would have a four week wait for bulk coloured tek screws, and are now having this turned around in almost half the time.

Stronghold Fasteners, unlike corporate-owned suppliers, have a very personal approach and great follow up with the same point of contact rather than different people with every call.

Although we only purchase a select range, we are well aware that they stock a vast range of fixings and this is so handy for all tradesmen making it a one-stop shop."

- Pete Claffey
